Conduct tests and analyses functions of system components to locate cause of malfunctions;
Frequently use electronic testing equipment, vacuum and pressure tester, battery tester and chargers as well as manufacturer specialized test equipment and special service tools.
Performs related task for installation work such as cutting, grinding and drilling;
Recovers, recycles and refill gas to A/C system with automated charging station;
Ensuring safety procedures and environmental friendly working habits are followed when repairing and fitting replacements spare parts;
Assist in the EVMS Carlog office with expertise and technical competence;
May need to travel to regional offices for EVMS trouble shouting and repairs in the field;
May perform other related technician duties, as required, within the Transport workshop.

COMPETENCIES

Professionalism: - Shows pride in work and in achievements; demonstrates professional competence and mastery of subject matter; is conscientious and efficient in meeting commitments, observing deadlines and achieving results; is motivated by professional rather than personal concerns; shows persistence when faced with difficult problems or challenges; remains calm in stressful situations. Takes responsibility for incorporating gender perspectives and ensuring the equal participation of women and men in all areas of work.

Communication: - Speaks and writes clearly and effectively; listens to others, correctly interprets messages from others and responds appropriately; asks questions to clarify and exhibits interest in having two-way communication; tailors language, tone, style and format to match the audience; demonstrates openness in sharing information and keeping people informed.

Teamwork: - Works collaboratively with colleagues to achieve organizational goals. Solicits input by genuinely valuing others' ideas and expertise; is willing to learn from others. Places team agenda before personal agenda. Supports and acts in accordance with final group decision, even when such decisions may not entirely reflect own position. Shares credit for team accomplishments and accepts joint responsibility for team shortcomings.

Education: - High school diploma is required. Technical and vocational qualifications in vehicle maintenance is highly desirable.

Work Experience: - At least four years of progressively responsible experience in automotive electric/electronic and/or automotive air condition repairs is required. Valid national driving license is required. Good working knowledge in utilizing computer software applications (Outlook, MS Word, Excel, FMS in Galileo, etc.) vehicle mechanic certificate considered an advantage.

Languages: - English and French are the working languages of the United Nations Secretariat. For the position advertised, fluency in oral and written French is required. Good communication and working knowledge in English is an advantage.
